Title of your workshop presentation/plenary speech: *Knowledge Dynamics in LLL*

Objectives of your presentation:

- 1.To show the main types of knowledge in a learning process.
- 2.To show the main knowledge transformations and their dynamics in LLL.
- 3.To re-consider the vision and the mission of a generic university in the new LLL environment.

Summary of content (max 600 words):

In the New Economy, knowledge plays an increasing role. However, when we talk about knowledge we should be aware of the different nature of tacit and explicit knowledge, cognitive and emotional knowledge. These are not constant quantities, but variable quantities and they transform continuously from one form into another. Learning depends on each of these knowledge forms and of their interactions and transformations. LLL is a continuous process which involves different forms of knowledge at different times, which means a knowledge profile along the individual lifespan. The purpose of my presentation is to explain some of these important issues in LLL, and to re-consider the vision and mission of a generic university in the new LLL environment.
